

Dr. Melissa L. Weir

PhD · RN · CNE · CPEN · CEN

DEAN OF NURSING · FALLS CHURCH CAMPUS · ARIZONA COLLEGE OF NURSING

“*Teaching is my oxygen.*”

WHERE IT ALL STARTED

A spark at Clara Barton High School for the Health Professions in Brooklyn, NY — and a dare she couldn't resist — set Melissa on a path that would inspire thousands of future nurses.

CLINICIAN. EXPERT. LEADER.

From bedside nursing to pediatric specialist to emergency and trauma expert, Melissa has earned every credential through grit, curiosity, and an unshakeable commitment to excellence.

SCHOLAR & MENTOR

After completing her doctoral education in nursing education, she stepped into the Dean role not to lead from above — but to walk alongside every student and faculty member, growing together.

FROM YOUR TEAM — WITH ADMIRATION

You walked in on day one and told us what you stood for — and then you proved it, every single day. You push us to conferences we didn't know we needed, challenge us to share what we know, and remind us that growing never stops.

*Your energy is contagious, your standards are high, and your door is always open. Working under your leadership doesn't feel like work — it feels like becoming better versions of ourselves. We don't just respect you, Dr. Weir. **We are genuinely in awe of you.***
